Reasons For Allowance

1. This application has been examined.
2. The amendment filed 11/8/06 has been entered.
3. The following is an examiner's statement of reasons for allowance: The amendment filed 11/8/06 places the application into condition for allowance by incorporating allowable subject matter from dependent claims into the remaining rejected independent claims, with the incorporated subject matter in combination with the other features of those independent claims together distinguishing over the prior art of record. Also, based on the specification, it is determined that the computer readable medium of claims 63-67 is a tangible medium in the processing system containing instructions which are then executed on the processing system, and thus these claims do not have a 101 issue. The independent claims (39 – access device, 50 – network device, 63- computer readable medium, 68 – apparatus, 71- network device with processing devices causing a second software layer to send a hypertext markup language document to a first software layer, 78 – network device with processing devices executing a first software layer to generate a user interface wherein the first software layer is a text based interface layer to a combined text based interface generator and HTTP client) are not set forth in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven P. Sax whose telephone number is (571) 272-4072. The examiner can normally be reached on Monday thru Friday, 8:30 AM - 5:00 PM.
